DEDICATION

We saw him in class and we liked him.

We watched as he directed the band.

This tribute is to honor him.

Donald Womick, of course, is the man.

Because of your interest in all and your willingness to help each individual we, THE 1961 RIDGERUNNER Staff dedicate our annual to you . . .

DONALD LEE WOMICK

FAMILIAR BUILDINGS

"We study hard,
passing and failing."

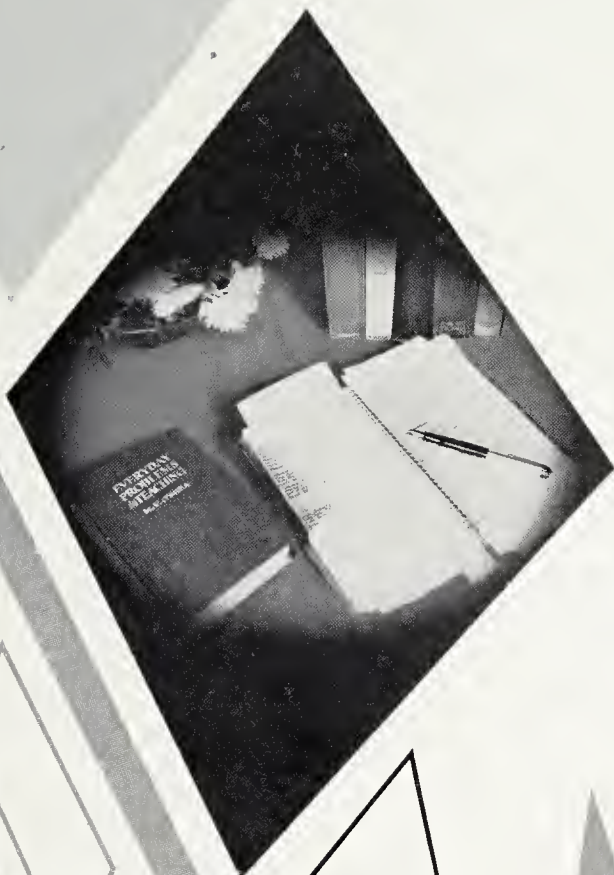

"We play hard, winning
and losing."

"We gather together to
socialize and eat."

CLASS HISTORY

In the fall of 1957, 190 excited and scared Freshmen received the first glance of their goal - Swain High.

We began to get acquainted, but mostly with other Freshmen since the upperclassmen seemed to think we were ignorant and "green". With a struggle for most of us, we got through the ninth grade and in Mr. DeHart's words became "elated" Sophomores.

As Sophomores, we felt at home. Those memorable days of learning to perform operations, and on a frog at that, are events I'm sure none of us will ever forget. That spring we got plenty of exercise from the hikes we took hunting plants.

Time was passing in leaps and bounds. We were, at last, Juniors, and considered upperclassmen. We put our hearts into the eagerly awaited Junior-Senior Prom and were blessed with the results. Everyone, Teachers and all, agreed it was the best prom ever. The theme was "Rendezvous With The Stars."

After three years of striving, we finally reached our thrones. We were SENIORS. We soon found that being Seniors wasn't at all easy. With the election of superlatives, preparing for the Washington trip, and the Senior Play, we found we were still the same Ole' Swain Hi students. That last year we had a new lunchroom. Other changes were made: an activity period, chapel each week, and no study hall. We looked forward to the Washington trip, Senior Play, prom, and getting our rings; but, our greatest event was yet to come - Graduation. We had reached our goal, but we couldn't stop there. We have before us a great new future in which many goals must be achieved.

Opportunities

Unlimited

In The Paper Industry

The world cannot do without paper. Year after year new uses and developments blend with the swelling world population to increase the demand for this useful commodity. Each and every American now uses over 400 pounds of paper per year.

As the paper industry grows, it needs the talents of a wide range of technical and professionally trained people. Since paper manufacturing is a chemical AND mechanical industry, there are unlimited possibilities with The Mead Corporation, a 114 year old company, with 38 mills and plants extending over 14 states.

With the presentation of these facts, we feel that there are unlimited opportunities in the paper industry in engineering, accounting, chemistry, physics, business, and personnel administration.
